

WSIPC's Purchasing Program connects K12 educators and public agencies to a network of bid technology partners

How To Use the WSIPC Purchasing Program Contracts

The WSIPC Purchasing Contracts are available for all education entities and public agencies who have an active Interlocal Agreement with WSIPC. Vendors are awarded through an official RFP process in compliance with Washington State Procurement RCW.

Bid Contract vendors are identified on the WSIPC website **wsipc.org/catalog** and can be searched by awarded RFP category. Bid documents and product/contact Information are available on each vendor page.

To utilize the WSIPC Purchasing Contract pricing, include the specific contract number (identified for each awarded vendor) on communication with vendors, requests for pricing and on the vendor PO.
