#### WSIPC RFP 21-03 Decontamination, Disinfecting, and Sanitizing Supplies, Equipment, and Services

TO: WSIPC Cynthia Gefeller, Contract Administrator 2121 W. Casino Road Everett, Washington 98204-1472

RE: RFP No. 21-03

In response to your RFP, the undersigned offers to furnish all of the Goods and Services described in the Technical Specifications in accordance with the Contract Documents and any Addenda thereto and for the prices and in accordance with the delivery schedule set forth in the attached Schedule of Prices.

By submitting a Proposal, the undersigned certifies and agrees that:

- 1. The undersigned has examined to its satisfaction, and is fully familiar with and understands all provisions of the Contract Documents and any Addenda.
- 2. All of the words and figures shown in the attached response are accurate;
- 3. All statements in this Proposal are true and accurate;
- 4. By careful examination of the Contract and proposal documents, all Addenda thereto and all other pertinent conditions and matters, the undersigned has satisfied itself as to the nature, location, character, quality and quantity of the Goods and Services required by the Contract Documents and the conditions and other matters that may affect performance;

- If awarded the Contract, the undersigned will duly execute and deliver to WSIPC the Contract, together with all documents required by the proposal documents, within ten (10) business days after it is presented to the undersigned by WSIPC.
- 6. WSIPC has no obligation to accept any proposal submitted in response to the RFP and may reject any or all such Proposals (including, without limitation, the undersigned's Proposal) or waive any informalities or irregularities in any proposal or the proposal process.

# APPENDIX C -VENDOR CAPABILITIES

#### WSIPC RFP 21-03 Decontamination, Disinfecting, and Sanitizing Supplies, Equipment, and Services

#### C1. Vendor Profile

#### Briefly describe your company in one page or less:

Med Solutions LLC is a SAM-registered Federal Government-approved vendor (DUNS 117481847, CAGE 8MU63) with an impressive growing portfolio of State and Federal Government-funded clients. We have been awarded national Co-Operative purchasing contracts with the NCPA (Contract #02-115, expiry April 2024) and TIPS (Contract #210304, expiry May 2024).

Our specialist UV-C division, threeUV, offers the largest portfolio of UV-C air, surface and water infection prevention technology available in the United States. threeUV markets a broad range of solutions to schools, Higher Ed, Non-Profits, Hospitals, federal and state government clients. Our solutions include: Air purification units (UV and non UV), fully autonomous UV-C robots, remotely operated disinfection carts, disinfection cabinets for IT equipment, classroom air cleaning solutions and point of use UV water cleansing systems.

In the midst of a pandemic, our expertise is being sought by many types of customers - K-12 schools, Higher Education facilities, public agencies, and more. We design infection prevention solutions that protect public agency facilities and allow K-12 School Districts to safely welcome teachers, students, employees, and parents back through their doors.

School districts around the U.S. are starting to invest heavily in UV-C technology to protect school facilities, and ensure a safer return to the classroom for teachers and students. In New Mexico, Gallup-McKinley School District recently invested over \$4 million for the purchase of 37 UV-C Robots to protect their 34 schools and 11,000 student population. Stockton Unified School District in California will install UV-C devices to clean the air in all 2,000 classrooms

across their 55 school network. UV-C technology is fast becoming the 'go to' solution for effective, chemical-free disinfection of school facilities across the country.

We aim to understand the space in which our customers operate, the types of properties they manage and their everyday environment. We then build solutions that draw on the best UV-C technology to protect properties, and by extension, employees and customers. UV-C infection prevention technology is not just an effective solution for the pandemic.

Our portfolio demonstrates highly-effective reduction rates of over 80 types of viruses and bacteria that cause the common cold, hay fever and other everyday ailments. Our products will help protect facilities across the U.S. long after the dust of the pandemic has settled.

#### Provide the Name, Address, Email Address, and Telephone Number of the Legal Entity

Provide the name, address, email address, and telephone numbers (including toll free numbers) of the legal entity with whom WSIPC may execute any contract arising from this RFP.

Name	Med Solutions LLC
Address	2321 Commerce St, Alpharetta. GA 30009
Email Address	nathan@medsolutions.llc
Telephone Numbers (including toll free numbers)	646-659-0890 833-600-7670

#### Legal Status

Describe the legal status of the Vendor, such as corporation or sole proprietor.

Limited Liability Corporation - C-Corp

# Name, Title, Address, Email Address, and Telephone Number of Principal Officer(s) and/or Account Manager

Provide the name, address, email addresses, and telephone (including toll free numbers) of the principal officers of the Proposer's company, proposed account manager and designated representative (Proposer) for any contract arising from this RFP.

## Is there any pending litigation against your company?

If you selected	d Yes, please provide a full explanation:
Yes	
Νο	

Has your company ever been or is now on the WA State debarred contractor	or list?
No	
Yes 🗌	

#### If you selected Yes, please provide a full explanation:

#### C2. Organizational Experience

Describe your company's experience in providing product and/or services. This includes your experience providing services to the K-12 educational and public sector. Include evidence of minimum sales of \$500,000.00 in the last 18 months to educational customers.

Med Solutions LLC is led by Nathan Branch, a seasoned business leader who has spent over 20 years in the global healthcare market. Operations are managed from our HQ in Alpharetta, GA, with large capital equipment items despatched directly from our manufacturer partners. Smaller footprint items are dispatched from our offices near Atlanta.

Med Solutions was launched in January 2020 and in that time has built an impressive customer base in Education, State, Federal and Public Agency markets. We supply Air, Surface and Water Infection Prevention solutions to K-12 Schools, Higher Education and Public Agency customers who buy off our awarded Co-Operative contracts. Customers come from all corners of the U.S and we offer supply of product in all 50 states.

#### C3. Customer Base

Describe the demographics of your company's customer base.

Our business heritage is healthcare and we enjoy strong commercial relationships with the VA and hospitals around the U.S. Our national Co-Operative purchasing contracts are accessed by K-12 School Districts, Higher Ed, First Responders, State and Federal Agencies, Non-Profits and Faith organizations.

#### C4. Customer Support Model

#### Describe in detail your customer support model:

Our customer service operation is outsourced through a third party U.S.-based provider who offers clients telephone assistance between the hours of 9am-8pm EST. We have an electronic ticket system in place for all service matters and operate a strict 24 hour response policy across the business.

Med Solutions operates a network of 15 Business Managers located across the country who are responsible for the management and servicing of our client base. The threeUV team will grow business on an awarded contract with in-person customer support across all school districts and facilities in the WSIPC network.

#### What are your customer help/information response times?

Guarenteed 24 hour response time, ticket system

#### **Describe your customer help/information access:**

We have dedicated email addresses for our customer service team, and will provide a dedicated email and telephone helpine number to WSIPC entities if awarded a contract.

#### Describe your account representative's role:

Our Business Managers are responsible for supporting customers in the field with product demonstrations, installation support training and complimentary service visits on all installations. They arrange site surveys to School Districts to design appropriate installation plans for classrooms and other rooms where infection risk needs to be mtigiated - i.e they will design the deployment of Air Purification units in classrooms, deliver them after school hours and train employees on their use.

#### How many employees staff your customer support help desk?

We have 2 dedicated customer service employees.

#### C5. References

Provide three (3) references from customers who have received product and/or services for more than three (3) years.

#### **Reference #1**

Telephone Number	440-942-9148

#### C6. Brand Name

State the brand name of the hardware, software, or services you are offering in the proposal. Vendors that represent more than one brand are not required to submit a separate proposal for each brand name.

Safe Space Technologies AquiSense Path03gen Solutions UV Angel Dimer Nordic Smartlight iCleanse Purify-One Air Rover **Energy Focus Light Progress** Surgically Clean Air **Cetrix Technologies** Aerapy Fresh-Aire UV Medify Air

#### C7. Marketing Model

Describe your company's marketing model that will be used to market the proposed solution(s) to educational and/or public agencies.

In order to effectively launch the WSIPC contract, an internal company-wide launch event will be held to ensure that all Regional Managers, Operations, Customer Service, and Finance personnel are familiar with the scope and reach of the contract vehicle.

Business Managers will be tasked with executing a launch plan to all State and Federal Govt. prospects, and the contract will be integrated into threeUV digital marketing platforms. It will be launched as a campaign through all email, newsletters and social media platforms (such as LinkedIn). Each month, the threeUV digital marketing platforms touch over 30,000 State &

Federal Govt. personnel across Education, Healthcare, First Responder, and Military markets. The WSIPC contract will be integrated into these efforts.

Our branded website - www.threeuv.com - already offers full e-commerce functionality across our portfolio. A dedicated login can be created for WSIPC contract purchasing entities. Product will be sold on free shipping FOB terms. A live transactional e-dashboard can be provided to the WSIPC for management and monitoring of the contract performance.

#### **C8.** Ability to Meet Delivery of Product or Service

The Proposer agrees that all goods are to be shipped by Proposer, at no additional charge to Purchaser, FOB Destination. Where specific authority is granted to ship goods FOB shipping point, Vendor agrees to prepay all shipping charges, route as instructed or if instructions are not provided, route through the cheapest common carrier, and bill Purchaser as a separate item on the invoice for said charges. Proposer also agrees that Purchaser reserves the right to refuse COD shipments.

If delivery is not made in the quantities and at the times specified, Purchaser shall have the right, at its option, to cancel the entire order or that part of same that is not so delivered. If Purchaser accepts delayed delivery the time of payment shall be extended accordingly.

Proposer may charge eligible Purchasers for express shipping when requested by the eligible Purchaser. A packing list must be furnished with each shipment that includes the eligible Purchaser's name, purchase order number, contact number, quantity and other pertinent information.

Do you agree to the statement above? Yes	$\boxtimes$
--	-------------

#### **C9.** Price Reduction Protection

If the quoted price is reduced between the time the quotation is provided to the customer and the time the Vendor's agent receives the customer's purchase order, the customer shall receive the benefit of the price reduction. All price reductions posted by the Vendor must be passed on to the customer. In no event shall the Vendor's agent hold customer orders in anticipation of a price reduction and then not pass on the price reduction to the customer.

Do you agree to the statement above? Yes	
--	--

#### C10. Use of Third Party Vendors

The Proposer must state whether third-party Vendors are, or are not, being used. If used, thirdparty Vendors must be listed in the Proposer's response. Changes in third-party participation in the Proposer's solution during the course of the contract must be reviewed with and approved by WSIPC.

Are Third-party Vendors being used?	Yes	No	$\boxtimes$
If you selected Yes, list Vendors below			

#### C11. Agent Re-seller Usage

If Agent Re-sellers are proposed, the Proposer must describe what hardware or services they will provide, how they are certified, how they are contractually bound to the contract terms and conditions, and how their sales will be accurately tracked and reported.

Are Agent Re-sellers proposed?	Yes	No	$\boxtimes$
If you selected Yes, answer the following	ing questions:		
What hardware or services they will provide?			
How are they certified?			
How are they contractually bound to the contract terms and conditions?			
How will their sales be accurately tracked and reported?			

#### C12. Subcontractor Qualifications

If Subcontractors are proposed, the Proposer must describe what services the Subcontractor will perform. The Proposer shall also assure that they will not assign or transfer any of its rights or obligations under the purchasing contract. The Proposer additionally assures that Subcontractors are in good standing with the Washington Department of Revenue and the Department of Labor and Industries.

Are Subcontractors proposed?	Yes	No	$\square$
If you selected Yes, answer the following questions:			
Describe what services the Subcontractors will perform:			
The Proposer assures that the Vendor will not assign or transfer to Subcontractors any of its rights or obligations under the purchasing contract.	Yes	No	
The Proposer assures that Subcontractors are in good standing with the Washington Department of Revenue and the Department of Labor and Industries.	Yes	No	

#### C13. Minimum Product Sales Volume

The Proposer must demonstrate to WSIPC's satisfaction its ability to adequately manage the projected sales volume of this optional use contract. The Proposer's RFP response must state the Vendor's 2020 sales volume within the category established in this RFP.

# Demonstrate your ability to adequately manage the projected sales volume of this optional use contract.

Before being awarded Co-Operative purchasing contracts with the NCPA (Contract #02-115, expiry April 2024) and TIPS (Contract #210304, expiry May 2024), Med Solutions had to demonstrate 'stress test' capabilities of managing large volume supplies of Classroom Air purification units to K-12 School Districts. These tests involved demonstrating lead time availability of products (All are within 5-28 days), supply from US warehouses and minimum warranty and customer service standards. These stress tests were modelled upon supply of \$5m worth of product per year.

#### State the Vendor's 2020 sales volume within the category established in this RFP.

\$250,000

#### C14. Eligibility for Participation in Federal Programs

The Proposer should provide the Vendor's System for Award Management (SAM) registration number as evidence of eligibility to participate in federal programs with its proposal. If the Proposer is not already registered for the SAM, it may do so at the System for Award Management website (<u>https://www.sam.gov/SAM/</u>). The Proposer should assert that neither the Vendor, nor any of its Subcontractors, have been debarred or suspended, or proposed for debarment or suspension. The Proposer should also assert that the Vendor is in compliance with all other Washington State Public Works Requirements.

Vendor's System for Award ManagementDUNS 117481847, CAGE 8MU63(SAM) registration number:DUNS 117481847, CAGE 8MU63					
The Proposer asserts that neither the Vendo Subcontractors, have been debarred or susp proposed for debarment or suspension.	•	Yes		No	
The Proposer asserts that the Vendor is in co other Washington State Public Works Requi	-	Yes	$\square$	No	

#### C15. Prior Contract Performance

If the Vendor has had a contract terminated for default during the past five years, the Proposer must describe all such incidents. Termination for default is defined as notice to stop performance due to the Vendor's non-performance or poor performance and the issue was either: (a) not litigated; or (b) litigated and such litigation determined the Vendor to be in default.

Submit full details of all terminations for default experienced by the Vendor in the past five years including the other party's name, address, and telephone number. Present the Vendor's position on the matter. WSIPC will evaluate the facts and may, at its sole discretion, reject the Proposer's proposal if the facts discovered indicate that completion of a contract resulting from this RFP may be jeopardized by selection of the Vendor.

Has the Vendor had a contract terminated for default during the past five years?	Yes		No	$\square$
If you selected Yes, answer the following questions:				
Instance #1:				
Other party's name				
Other party's address				
Other party's telephone number				
Provide full details of the termination for default experience	ed by th	e Vend	lor	

#### Present the Vendor's position on the matter

#### Instance #2:

Other party's name
--------------------

Other party's address

Other party's telephone number

Provide full details of the termination for default experienced by the Vendor

#### Present the Vendor's position on the matter

# APPENDIX D -PRODUCT/SERVICE REQUIREMENTS

#### WSIPC RFP 21-03 Decontamination, Disinfecting, and Sanitizing Supplies, Equipment, and Services

#### INSTRUCTIONS

Please answer each requirement based on the proposed solution's ability to satisfy the respective requirement. If the requirement cannot be met and warrants further explanation, a brief explanation may be provided in the "Comments" column. The following scoring system should be used to evaluate each business requirement:

Response Code	Definition
Y—Yes	Requirement is met.
N—No	Requirement is not met.
Q—Qualifier	Ability to meet requirement requires further explanation from Vendor. Please use the "Comment" column to provide more details.

#### GENERAL

Requirements/Specifications	Yes	No	Q	Comment (Required if "Q" is selected)				
<b>Product/Service Usage -</b> The product and/or service is used by other Washington State K-12 school districts and has an active Washington State user community.				Under the American Rescue Plan Washington State K-12 School Districts have access to funding to purchase equipment to improve the quality and cleanliness of classroom air. These are the type of products that Med Solutions supply.				
<b>Documentation -</b> Describe access to operational, instructional, and/or specification sheets. It is highly desirable that this type of information be available to customers electronically via the internet (preferred) or other electronic means of delivery.				All support documents, spec sheets, warranty information, training manuals etc for all products proposed for oru contract are available for download at www.threeuv.com				
<b>Shipping Costs</b> - All costs for shipping to the buyer's location, must be clearly stated on price lists and promotional materials, and must be clearly described in the Proposer's response to this RFP.				All products are supplied on a FOB basis and is built into the unit purchase price				
<b>Vendor Website</b> - The Proposer must have an active website with published product and/or service information.				www.threeuv.com				

#### **TECHNICAL/FUNCTIONAL REQUIREMENTS**

Requirements/Specifications	Yes	No	Q	Explanation (Required if "Q" is selected)
EPA Approved.	$\square$			All UV-C products supplied by Med Solutions are EPA certified.
Low toxicity ratings without harmful chemical residue.	$\square$			UV is chemical free and generates no harmful residue

Requirements/Specifications	Yes	No	Q	Explanation (Required if "Q" is selected)
Eliminates all microbiological containments.				UV is proven to kill pathogens of bacteria and viruses such as SARS-CoV-2, Legionnaires Disease and Influenza
24/7 protection.	$\square$			
Offers a wide variety of disinfection treatments like electrostatic sprayers, dry fogging, wet fogging, chemical foaming, UV lights, air purifiers, etc.				
Bio burden reduction of 90% or better.	$\square$			Minimum 99.9% kill rate against SARS-CoV-2
Minimal downtime.	$\square$			
Treatment solution is quick and efficient.	$\square$			
Microbial swabbing and testing.				
Minimal environmental impact.	$\square$			UV is a green technology
If offering services, they must be customizable to meet the needs of customer.

# Strengthen your K-12 School defense against Air, Surface and Water infection risk with UV-C technology

Stop recirculating infectious aerosols with our upper air room UV-C technology. Aerapy upper room UV Air solutions generate up to 4 full K-12 air exchanges per hour

Safe for use in occupied rooms, UV Angel Air is proven to eliminate 99.99% of bacteria and viruses in the air. Each unit protects 150 square ft and disinfects 50 cubic ft of air per minute

Fresh-Aire UV

Our range of HVAC solutions allow K-12 Facilities to attach UV cleaning technology directly to Air Handling units without the need for expensive, time consuming remodelling

Light Progress is a global leader in UV Air disinfection with over 30 years experience. A broad portfolio of freestanding and wall mounted solutions for the K-12 classroom

Our portfolio of Air Purifiers all feature genuine HEPA 13 filter technology. The Medify Air range offers outstanding Air cleansing performance at the best price point in the K-12 marketplace.

**Air Rover** 

In just 5 minutes Air Rover inactivates

99 99% of SARS-CoV-2 in a 1200 square

foot room. At a flow rate of 2,000 CFM,

Air Rover delivers twelve air exchanges

per hour in a typical school classroom

**Energy Focus** 

With an enclosed UV-C chamber,

Energy Focus's nUVo delivers five air

changes per hour in a 200 square foot

room. No filter changes and it's UV-C

module will last over 10.000 hours

SCA

JADE from Surgically Clean Air is the

leading Air solution on the market. Six

stages of filtration, high volume airflow

and whisper quiet noise levels makes it

an ideal solution in a classroom

Available in six different sizes, our UV charging cabinets are powered by UV-0 light. Capable of disinfecting up to 60 laptops, tablets and other high-touch items in just 10 minutes

The only UV wand on the market proven to kill 99.9% of SARS CoV on surfaces in under 5 seconds. Pass the hospital-grade UV-C light over surfaces and eliminate dangerous pathogens

The first fully autonomous UV-C disinfection robot manufactured in the USA. Proven to kill 99.99% of Covid-19 pathogens, disinfecting over 16,000 square feet on a single charge

The smallest UV-C water disinfection point of use system in the world. Micros's UV-C LEDs kill over 99.99% of dangerous pathogens in water without the use of harmful chemicals

The only operator-driven UV-C solution in the market. Lamps operate at minimal distance, delivering superior disinfection for high-touch surfaces. Protects 12,000 square feet per hour

Lite reduces viruses, bacteria and mold in rooms; each unit protecting over 200 square feet. UV-C light is controlled via an app, allowing users to schedule regular disinfection of rooms

Our UV-C disinfection stations are convenient, easy to use and chemicalfree. Patented technology applies germicidal light to 99% of the surface area of any item you place in them

UVZone is 10 times more effective at eliminating germs than standard UV-C light. Disinfect all footwear entering your facility in as little as 6 seconds. Proven to kill 99.99% of COVID-19

1-833-600-7670

# Med Solutions LLC Capabilities Statement

CAGE: 8MU63 DUNS: 117481847

## ABOUT US

Med Solutions LLC of Alpharetta, GA, boast over 20 years of experience in the healthcare sector. We are a SAM-registered Government-approved vendor, with an impressive portfolio of State and Federal Government-funded clients.

Our specialist UV-C division, threeUV, offers the largest portfolio of UV-C air, surface and water infection prevention technology in the United States. This technology protects facilities and is proven to lower infection rates of COVID, Influenza, the common cold, hay fever and other everyday ailments. Products include: fully autonomous UV-C robots, remotely operated UV-C disinfection carts, UV-C wands, UV-C air cleaning solutions and UV-C water systems.

## **CORE COMPETENCIES**

- Government Registrations
  - System for Award Management
- UV-C surface and air Infection Prevention solutions
- Facility Infection Prevention needs assessment
- Installation services
- Management reports
