

SAFETY AND SECURITY PLANNING

WHO WE ARE

Aanko is a minority and veteran-owned certified small business providing safety and security solutions.

We help clients **"Lead The Journey..."**™ at the forefront of their professions.

Our proactive and dedicated team of safety, security and emergency management experts provide a mission-focused approach to student, staff and visitor safety challenges. In fact, many of our highly qualified team members have educational administrative and teaching backgrounds.

We couple our collective knowledge of safety and security best practices, with ongoing ability, necessity, and desire to share this critical knowledge during all engagements. This ensures your safety, security and emergency response teams maintain operational resiliency, threats are detected and nullified, and protection of people and property are enhanced.
