

GoGuardian Admin is the most preferred K-12 web filtering solution.

More than 117,000 educators use GoGuardian Admin to establish secure learning environments and protect over 12.7M students online.

91% 91% of educators favor GoGuardian Admin for keeping their students and community safe.

Smart Alerts uses advanced machine learning algorithms to proactively identify explicit content in student browsing activity, empowering administrators to intervene quickly.

Comprehensive web monitoring through a single intuitive dashboard. Implement, monitor, and adjust filtering policies across users, devices, operating systems, and browsers and easily understand key trends like the most visited websites, videos, docs, and apps.

“ With the recent release...of the machine learning and AI built in we’re finding things that no other filter on the market I believe could find.”

Mike Daugherty, Director of Technology
Chagrin Falls School District

“ What’s not to like about GoGuardian Admin? It has all the features that we want in one single pane of glass.”

Gary Lambert, Director of 21st Century Learning
Beekmantown Central School District

More features:

- **Smart filtering:** Utilize AI to block harmful content while allowing educational resources.
- **Theft recovery:** Track devices by serial number, device type, user information, and location history.
- **Filter anywhere:** Differentiate policies based on time of day or if a device is on or off campus.
- **Custom groups:** Create tailored environments with flexible filtering for individual students or group levels.
- **BYOD and guest network filtering:** Protect all devices with GoGuardian’s DNS solution.
- **Policy Simulator:** Test if a website URL or YouTube video is blocked for users in a specified Org Unit.
- **Role-Based Access Controls:** Build and assign custom user roles to tailor a user’s GoGuardian Admin and Organization Management access to their exact needs.
- **Parent App:** Give parents direct access to student online activity reports and filtering controls at home.
