# BEHAVIOR TRACKING

GET STUDENTS BACK ON THE RIGHT PATH WITH FLEXIBLE REFERRAL OPTIONS.

- Eliminate referral paperwork for teachers and give them the ability to document non-escalated events

- Administrators are notified of referrals so they can take immediate action

- Parents will view offenses and interventions through Family Access

- Detailed reporting to help you take proactive measures

DESIGNED FOR IMMEDIATE RESULTS

Behavior events are time-sensitive and often require rapid action. Skyward designed every aspect of Behavior Tracking to speed up the process. Create custom form letters to share with parents and set up automated emails to the necessary staff when infractions occur. The data is easy to get to and easy to analyze, so you can take steps to address recurring issues in any of your schools. Minor classroom referrals can be handled without escalation, giving teachers an invaluable tool in documenting those daily coaching opportunities.

POSITIVE BEHAVIORAL INTERVENTIONS AND SUPPORT (PBIS)

As PBIS continues to gain popularity, we're here to support your efforts. Track fields such as motivation, level, location, and identify which school-wide disciplinary practices are working. Track daily behavioral expectations with Response to Intervention (RtI) to ensure each student's individual goals are met.

ATTENDANCE COUNTS TOO

When an action occurs that results in a student being removed from a classroom or school (suspension/expulsion), their attendance records will update automatically so you can be confident in the accuracy of the numbers being reported to your state and federal agencies.
