

ENROLLMENT AND REGISTRATION

NEW AND RETURNING STUDENTS CAN SAVE A TRIP TO THE OFFICE WHILE SAVING YOU THOUSANDS.

- Add your own custom enrollment forms
- Registrars review, update, and process applications
- Reduce paper, phone calls, and workload
- Easy for parents to use
- Personalized workflow and requirements

SIMPLE AND PAPER-FREE

When parents click on “enroll new student” from your district’s website, they’ll be presented with instructions on how to get started. Once entered, the information will be routed to your registrar for review and approval. Empty out those waiting rooms and free up your staff’s schedule while providing a better first impression for your parents.

KEEP RECORDS SECURE

All information is protected from the moment it’s entered, including the supporting documents and forms that get uploaded during the process. When enrollment is approved, this information becomes a part of the student record, eliminating the need to move paper around.

IT ALL HAPPENS IN ONE PLACE

Once the student is accepted, parents will automatically have access to calendars, schedules, grades, lunch accounts, and much more. No calls to IT and no waiting needed.
