

FAMILY ACCESS

IT'S MORE THAN JUST AN ONLINE REPORT CARD. IT'S A WHOLE-CHILD VIEW OF PROGRESS, INTERVENTION, AND ASPIRATIONS.

- Requires almost no digital skills to use
- Alerts for attendance, grade thresholds, and missing assignments
- Parents can register their children and pay fees
- Course requests and graduation planning
- Add data collection workflows to gather information

KEEP PARENTS CONNECTED

Parents have never been so close to the educational process. They'll be able to keep tabs on where their lunch balances are going, test and assignment scores, progress towards graduation, and more. Parents with multiple children in the same district can view information on children all at once or individually.

GIVE STUDENTS MORE CONTROL

Student engagement doesn't need to end at the classroom door. You'll be amazed at how often students are checking for posted grades and reviewing what they need to do to reach their goals. With student-centric features like online assignments and future course requests, the power is back in the hands of the learner.

FEWER QUESTIONS, MORE ANSWERS

Your tech department has enough on its plate without getting bogged down in parent portal help tickets. Every section is clearly labeled and accessible with minimal clicks. Our mobile app means parents and students aren't tied to a desk and can find what they're looking for from anywhere. All of the information being displayed is accurate and up-to-the-minute, with no delays to cause confusion.
