

# ONLINE COURSE REQUESTS

STUDENT-CENTRIC SCHEDULING. HELPS COUNSELORS MEET STUDENT NEEDS. WORKS IN CONJUNCTION WITH TEACHER RECOMMENDATIONS.

- Students and parents can request courses together
- Great for long-term career planning
- Relieve some of the burden on your counselors
- Give students ownership of their learning

## DESIGNED FOR A FUTURE-READY SCHEDULING APPROACH

Online Course Requests can be used with Future Scheduling. With student-centric and personalized learning fast becoming the norm, it's important that you have the tools to keep up.

## EASY FOR STUDENTS AND PARENTS TO USE

There's no sense having a tool like this if the people it was designed for need to be technical experts to use it correctly. The Online Course Request feature is located in the same part of Family Access that students and parents already go to for schedules. There will be a clear notification when Course Requests are open and students can add or remove selected courses with just one click.
