Discover Qmlativ

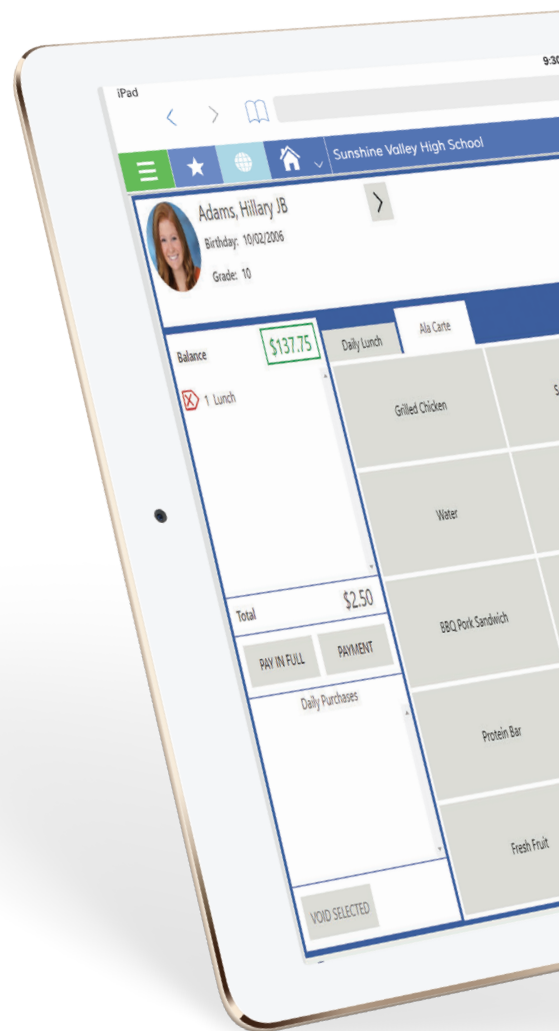

Qmlativ® Education Management System, the latest evolution of Skyward technology, is the epitome of a better SIS and ERP experience.

Built to leverage the latest technology, Qmlativ is more than a promise of features and functionality. This SQL-based platform combines an enjoyable user interface with preemptive support measures and a focus on the growth and development of every user.

Qmlativ has been empowering school districts since 2014. Throughout that time, Skyward has continuously worked to further develop and fine-tune the system, ensuring your needs are met today and well into the future.

"Qmlativ solves our future plans for the next generation, I see no reason why we would even consider looking at a new SIS. **Skyward** is so much **deeper** and **broadier** than our previous SIS, and it does **everything** that we want it to do."

- Keith Madsen,
Director of Technology at East Allen County Schools, IN

Key Benefits of Qmlativ

- Applies the latest technology and design to provide a user-centric experience that adapts to your specific needs.
- Uses system architecture that enhances security and interoperability based on a SQL environment.
- Features a modern user interface that capitalizes on current environments, from multi-screen desktops to mobile platforms.
- Includes embedded customization and workflow tools to meet your unique needs for managing important tasks and processes.

Bring transparency
to your grading process.

Work Smarter

BE CONFIDENT. BE A LEADER. BE FUTURE-READY.

Technology is only as valuable as your team's ability to use it. By getting more out of your SIS now, you'll set yourself up to enjoy an even brighter future.

ENGAGE STUDENTS, PARENTS, AND STAFF

- Put students at the center of your edtech efforts by giving them and their parents more access to the big picture.
- Teachers, office staff, and administrators will all find ways to save time and be more efficient thanks to our focus on support for non-technical users.

REDUCE DOWNTIME

- No more bottlenecks. Tasks that touch multiple levels on campus and in the district office flow effortlessly from one step to the next.
- Enjoy the benefits of simple navigation, global search capabilities, and consistent visual feedback.

SHAPE YOUR SOLUTION

- Our SIS has been built with continuous input from every stakeholder group, from parents and students to teachers and administrators.
- You too can make a difference by suggesting additions or changes through our Product Ideas Portal or User Research Panel.

Engage Better

THE RIGHT INFORMATION. THE RIGHT PEOPLE. THE RIGHT TIME.

An effective data strategy is at the heart of every future-ready school district. Say goodbye to the world of spreadsheets and hello to actionable intelligence.

PUT DATA TO WORK

- Stop digging for insights. Your data will be easy to understand and always available.
- Live tiles show real-time stats, charts and graphs make data easy to consume, and custom reports mean you'll be looking at what matters to you.

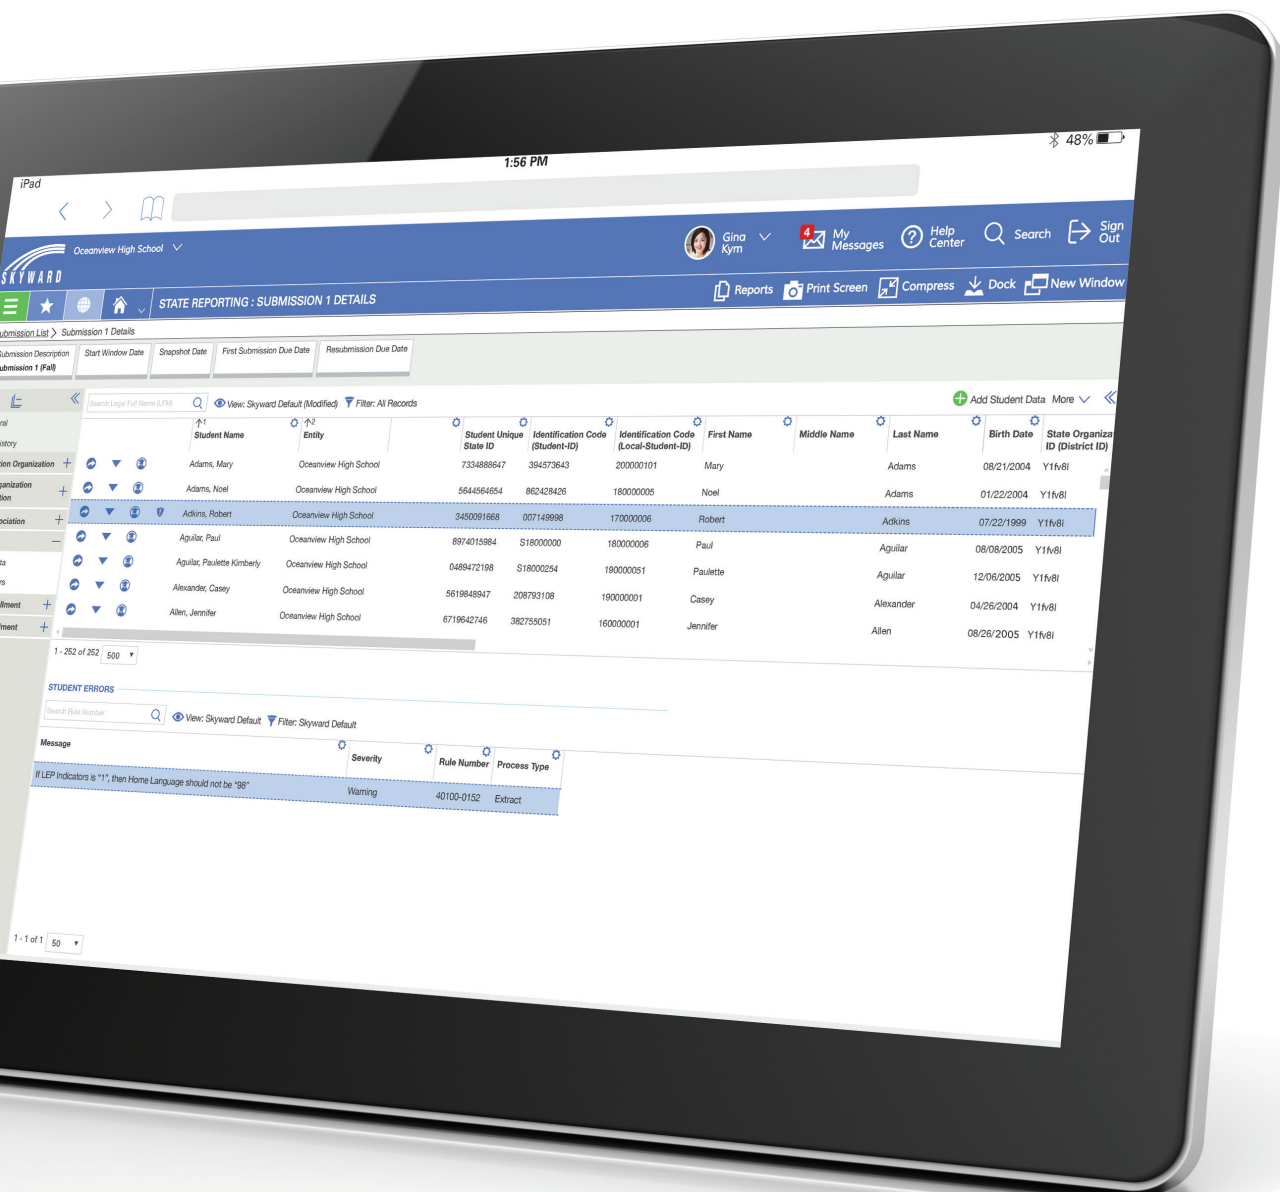

CHAMPION TRANSPARENCY

- Reduce risk and improve awareness with on-screen notifications, vital student health alerts, and built-in audit trails.
- Avoid those lost-in-translation moments. When everyone knows where to find the information they need, "I didn't know" starts to lose its meaning.

LEAVE COMPLIANCE TO US

- Built-in reports and safeguards remove the burden of staying compliant with state and federal requirements.
- You'll have a dedicated team of specialists monitoring the guidelines in your state, so you can stay ahead of any changes.

Stay compliant with built-in
state and federal reports.

Empower Everyone

PREEMPTIVE SUPPORT. BETTER TOOLS. FEWER OBSTACLES.

A high-performing culture is built on trust, productivity, and excellence. Your first step is to give everyone the tools they need to be better at what they do.

REDUCE THE RED TAPE

- Administrative bottlenecks and paper workflows can be a constant source of frustration. Automate your most tedious tasks and minimize turnaround times.
- Tardy kiosks, online forms, and messaging tools will free up your staff to focus on students rather than procedure.

PRIORITIZE GROWTH

- Professional development will be one of your top priorities for years to come. It's also at the core of everything we do.
- With go-to resources for your staff such as the Professional Development Center and our multimedia Help Center, your IT team won't get bogged down in training and support.

DRIVE ACCOUNTABILITY

- Your students will finally have the visibility they need to take control of their education with a calendar of upcoming assignments, communication tools, and more.
- Your administrative team will have the insights they need to provide valuable one-on-one coaching and raise your team's performance.

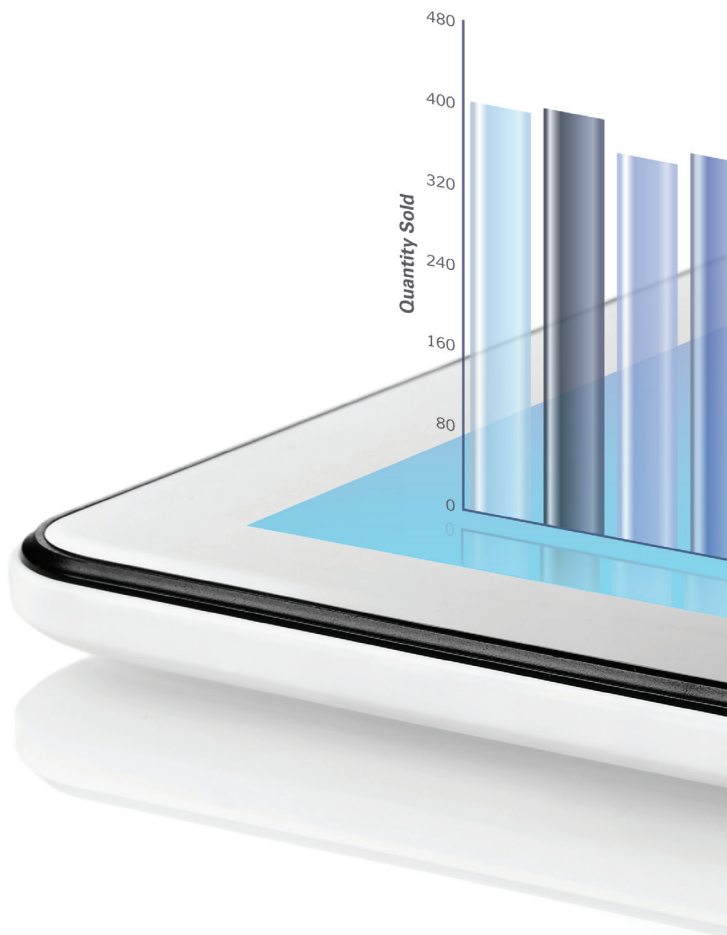

Expect More

ASK YOURSELF THIS QUESTION:

If there were a more efficient way to get things done with the same number of resources, wouldn't you want to take advantage of that solution?

We recognize that change is difficult. Your district doesn't just need a technology overhaul. You need a partner who can provide the foundation and resources necessary to set your team up for success and mitigate the challenges associated with wholesale change.

Our products and services are based on a close collaboration with our community. With Skyward, you can expect a solid foundation that starts with implementation and continues through years of reliable support and enhancements.

Charts and graphs make data easy to consume.

A Better Experience

TECHNOLOGY. COMMUNITY. LEADERSHIP.

Your partnership with Skyward is about more than just technology. It's about improving your entire culture and fostering a better learning environment for your students.

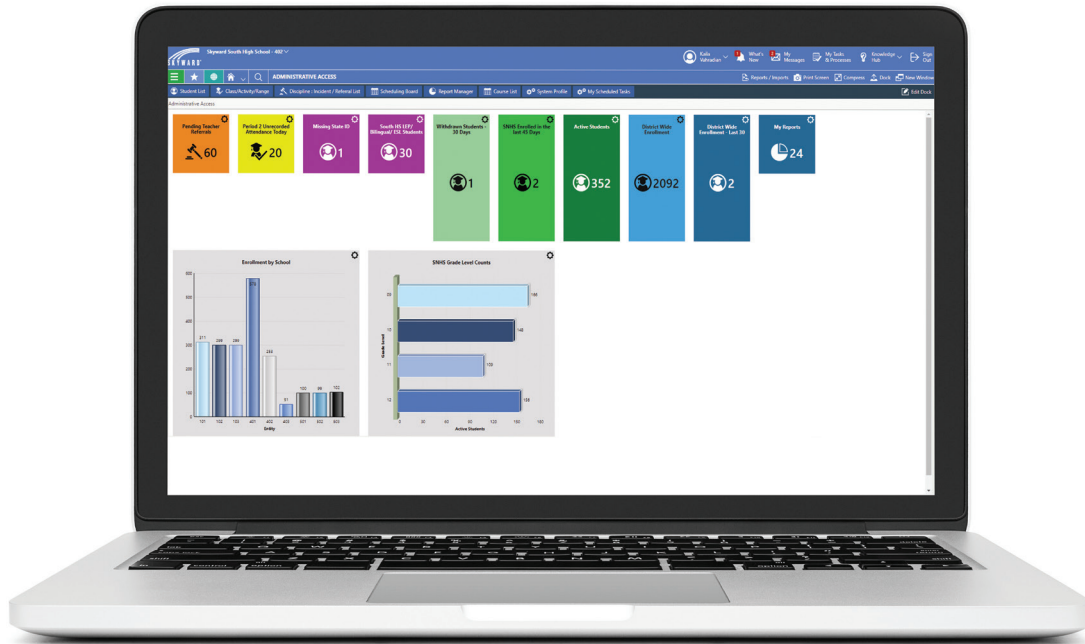

You have an opportunity to become more efficient, consolidate multiple systems, and drive the kind of educational leadership that can make your district a go-to destination for families and high-performing teachers alike.

"THE OLD WAY" IS ON ITS WAY OUT. THERE'S JUST TOO MUCH AT STAKE TO SETTLE FOR OUTDATED PROCESSES AND TECHNOLOGY.

Student Management Suite

With Qmlativ, your staff and students will soar to new heights.
Are you ready to go Skyward?

CLASSROOM TOOLS

- Attendance Tracking
- Behavior Management
