Cammie Hawkins	75.00	68.00	68.00
Carla Simmons	82.00	20.00	20.00
Christie White	85.00	85.00	85.00
Christopher Simpson	90.00	90.00	90.00
Darryl Lewis	88.00	88.00	88.00
Jon Miller	76.00	76.00	76.00
Kendra Ramirez	70.00	70.00	70.00
Joseph Gonzalez	10.00	10.00	10.00
Yusef Pappas	18.00	18.00	18.00

## BUILT ON TRANSPARENCY

Administrators can use Skyward's Gradebook to keep tabs on what's happening in the classroom. Teachers will have access to all relevant information and the ability to provide clear and actionable progress reports to parents. Parents will be able to track their students' performance and intervene when necessary. Students can become more accountable with visibility into each assignment and how it impacts their overall performance. It's a win-win for everyone.

## STANDARDS-BASED GRADING

No matter what level of instruction, from elementary up to high school, try a standards-based approach. Evaluate skills directly or create activities to track skill mastery. If you're ready to move away from the letter grade, Skyward's Gradebook can help you get there.

## TRADITIONAL (SECONDARY) GRADING

You shouldn't have to worry about the limitations of your technology when designing a grading strategy for your district. Skyward's Gradebook supports a variety of grading methods and multiple scales per class. Customize scales and categories and create student groups for assessments, assignments, and expectations.
