

HEALTH SERVICES

IMMEDIATE ACCESS TO VITAL INFORMATION WHILE REMAINING HIPAA AND FERPA COMPLIANT.
KEEP NURSES, SUPPORT STAFF, AND PARENTS IN THE LOOP.

- Track and report on immunizations and vaccinations
- Complete nurse's log with freeform notes
- Simple, accurate medication administration tracking
- State requirements are all pre-loaded
- Maintain accountability of your student while in the health office

The screenshot displays the Skyward Health Services interface for a student named Mary Anna Adams. The interface includes a sidebar with navigation options like 'Health Office Visit Queue' and 'Student Office Visit Details'. The main area shows a 'CURRENT OFFICE VISIT - IN OFFICE' section with fields for 'Visit Status', 'Visit Signs', and 'Diabetes Care Log'. A 'VISIT DETAILS' section includes 'In Date', 'School Year', 'Entity', and 'School'. A 'Visit Reason' dropdown menu is open, showing various medical conditions such as 'ABRASION - ABRASION', 'ALLERGIC REACTION - ALLERGIC REACTION', 'ALLERGIES - ALLERGIES', 'ANXIETY - ANXIETY', 'B - BLEEDING', 'BREATHING - BREATHING - DIFFICULTY', 'CONTACT REPLACEMENT - CONTACT REPLACEMENT', 'COUGHING - COUGHING', 'CRYING - CRYING', and 'CUTICULAR/PERICUTANEOUS/ECZEMA - CUTICULAR/PERICUTANEOUS/ECZEMA'. Below this, there are fields for 'Visit Treatment', 'Visit Disposition', 'Comment', and 'Examined By'. A 'NOTIFICATIONS' table is also visible at the bottom.

HEALTH HISTORY AT YOUR FINGERTIPS

Every immunization, vaccination, and illness or alert can be kept in the student's confidential record. If there is ever a question about a student's health, nurses can access hearing tests, dental records, disabilities, office visits, IHPs, and so much more.

AT-A-GLANCE MEDICATION LOG

Organize medication schedules for all students from one place. Nurses can use the medication Quick Entry log that views the student, their medication, how the medicine should be administered, and how often.
