

# SEARCH. STORE. SECURE. Document Management

on Phase's digital document management solution empowers your business to be more efficient, profitable, and ready to scale. Eliminate the tedious search for documents, neverending email chains with attachments, and the nerve-wracking process of hand-delivering paper documents that tend to vanish in cluttered workspaces.

### **Enhance Security**

Minimize the risk of loss, damage, and fraud with industry-leading compliance for document storage.

## Search Effortlessly

No more digging through filing cabinetsfind what you need instantly with custom indexing and full-text search capabilities.

## **Anytime, Anywhere Access**

Retrieve the records you need anytime, anyplace with cloud-based storage for all of your documents.

#### **Reduce Expenses**

Protect your bottom line by eliminating unnecessary expenses like paper, ink, and toner.

## SECURE, SCALABLE SOLUTIONS FOR BUSY TEAMS

#### **Version Control**

Effortlessly monitor, review, and manage activity history at the document or user level, including views, comments, edits, folder changes, deletions, and more.

#### **Digital Annotations**

Boost team collaboration with virtual tools like sticky notes, highlights, and approval stamps, all while keeping the original document intact.

#### **Barcode Routing**

Digitize your paper records with custom barcodes, enabling fast and easy scanning and indexing into the exact cabinet and file location you need.

#### **Integrated Sharing Tools**

Teams can seamlessly share documents with internal and external parties for review and approval—no separate account required.

----------

#### **Role-Based Permissions**

Limit document and cabinet access by department, role, or user to keep data secure from unauthorized parties.

#### **Customizable Indexing**

Set up the system to store and organize documents according to the unique needs of your business—not the other way around.

"I have and would recommend this solution to other companies, as I could not imagine running our business without the onPhase document management solution."
