HUMAN RESOURCES MADE EASIER WITH QMLATIV

Identifying and creating positions, managing job assignments, tracking staff-related reporting - is there anything Human Resources doesn't do? Doing it all can be difficult, though, when faced with staff turnover, cumbersome recruiting processes, and ever-changing benefits and enrollment requirements.

With input from HR professionals, Skyward's Qmlativ® Business Management System was built to tackle these obstacles, leaving you with more time and resources to do what matters most.

BENEFITS OF THE QMLATIV SOLUTION:

Qmlativ solutions are built to help you manage your tasks with ease, with enhanced features to provide a more seamless experience:

TRUE POSITION CONTROL

- With Qmlativ, unique position numbers are assigned to each position, allowing you to get a clear picture of filled or vacant positions.

- Position control becomes much easier for your HR team when you can quickly look up the position history by the position itself, or by employee.

- Create those unique or split positions with ease by using the customizable parameters.

APPLICANT TRACKING

- Applicant Tracking simplifies hiring with easy tools for posting jobs, collecting applicant data, screening applicants, and managing interviews and offers.

- Custom workflows help collect hiring documents and trigger setup tasks like credentials, badges, or equipment.

- Seamless integration pushes new hires into Employee Profile, Assignments, and Payroll with no extra data entry.

- Available at NO cost to WSIPC districts as part of your membership.

EMPLOYEE MOBILE APP

- All the benefits of Employee Access, app-sized.

- Allows employees to stay up-to-date on the go.

- View paycheck history, time off balances, tax forms.

- Clock in/out, submit time sheets, manage time off.

- Available for IOS and Android.

TIME OFF

- Time off functions are fully integrated within the Position Management solution.

- Qmlativ time off transactions are linked to specific jobs, meaning time off will be paid out of the correct expense account without any manual adjustments.
