

Introducing Absorb Analyze Direct

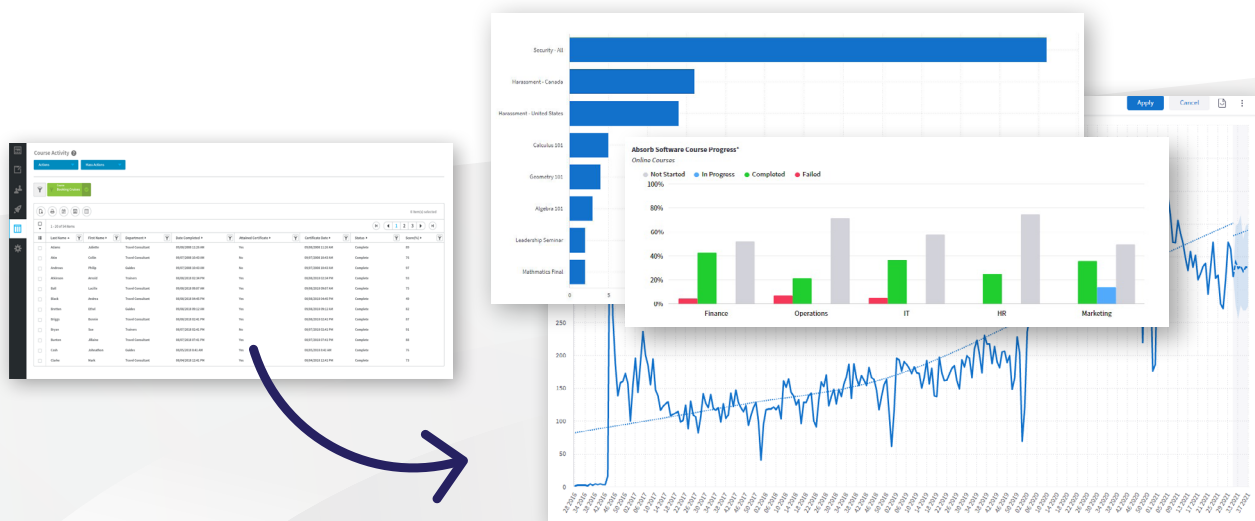

Connecting Your Absorb Data and BI Tools, Made Easy.

Absorb Analyze Direct is the next evolution of Absorb LMS reporting. Powered by Snowflake, this advanced data warehouse solution connects your data visualization tool with your Absorb LMS data. With your data securely housed, you'll be enabled to make data-driven decisions, improve learner engagement, and explore your training data to improve your organization's learning and development strategy.

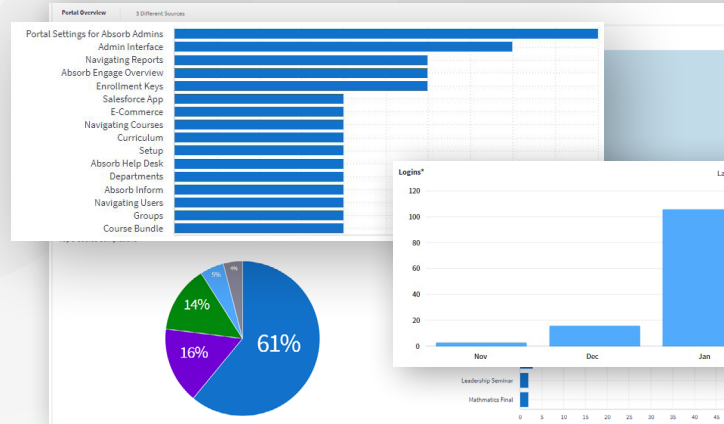

Create, Measure, and Evaluate, Data-Driven Insights with Absorb Analyze Direct

Your business is unique, and so are your reporting needs. Absorb Analyze Direct makes evaluating, measuring and inspecting your Absorb Learning and Development data more accessible than ever. Using Snowflake's turnkey data cloud, you can now connect your Absorb LMS data with your organization's Business Intelligence (BI) tools. Unlock new insights from your granular LMS data, and increase internal collaboration across your organization's Learning and Development initiatives.

It's the best LMS business intelligence tool to:

- Get more value from your LMS by granting access to relevant data sets
- Measure the impact of your training programs
- Identify trends and effectiveness of your training programs
- Improve the flexibility of data analysis
- Enable scalability
- Remove data silos
- *And so much more*

Key Benefits of Absorb Analyze Direct

Easily Access Live Data

With Snowflake's intuitive program you'll gain instant, and maintenance-free access for your internal data analysts to develop the insights that are most relevant to your organization.

Secure Data Sharing

With Absorb Analyze Direct, you'll have ultimate control over your data. Keep your data secure while providing governed access to authorized users with Continuous Data Protection (CDP).

Simplify Your Business Intelligence Tool Stack

Remove the dependency of learning to use another data visualization tool, instead use the product you have already invested in, and trained your employees on.

Unify Siloed Data

Close analytic gaps across your organization, connecting Learning and Development outcomes with other departmental data.
