TEACHER MOBILE APP

AN ALWAYS-AVAILABLE MOBILE APPLICATION FOR THE TEACHER WHO WANTS TO BE UNTETHERED FROM THEIR DESK

- Tiles provide single-click access to teacher resources

- On-the-go access for teachers in motion

- Access the most-used tools: Attendance, Gradebook, Messaging, etc.

- Customize tiles for individual needs

A TEACHER-FRIENDLY ENVIRONMENT

Classroom technology is only as good as your teachers' confidence level in using it. Mobile Teacher Access makes it easy to manage daily activities by bringing gradebooks, attendance, messaging and student information into one convenient place. Your teachers will never have to sort through mountains of files or disparate systems again, and they can access the system from anywhere with a data connection.

MOBILE-READY ATTENDANCE

The ability to take attendance from any mobile device means location will never be an obstacle. Perfect for educators who move between buildings or conduct classes outside of the traditional classroom, mobile attendance ensures that all students are always accounted for.

CLASSROOM MANAGEMENT IN THE PALM OF YOUR HAND

Whether the teacher wants to input assignments and scores, take attendance, or send a personal or class message, classroom management information is readily available via the mobile application. Being mobile can help reduce the time it takes to complete tasks like attendance, and eases the timeliness of academic performance evaluation, no matter your location and proximity to a computer.
