

ALE management made effortless

Track weekly contact, monthly progress, and more with the **ALE** application

Personalize Written Student Learning Plans.

Build unique WSLPs to support a student's individualized learning requirements.

Make managing ALE requirements a breeze. Quickly monitor and record weekly contacts, class progress, and overall monthly progress.

Support learning needs.

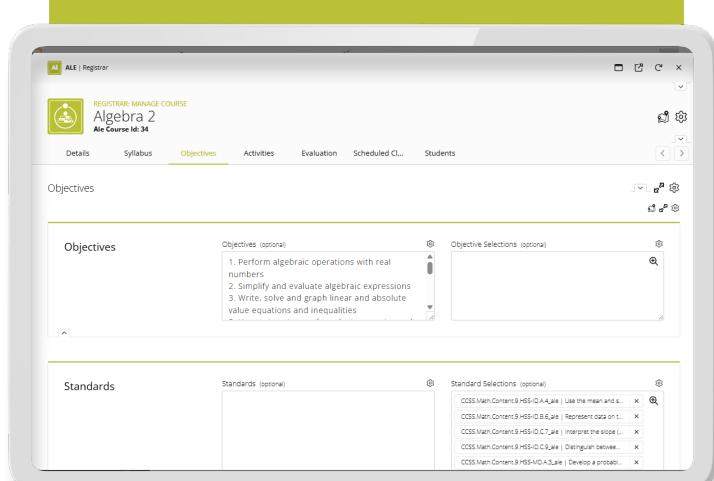

Create ALE intervention plans that are connected to the student's WSLP for easy access and monitoring.

Manage class offerings. Create and manage your program's class schedule and class registration options in ALE.

Stay in close contact. Students and parents can access the portal, and educators can blast out emails or SMS messages.

Maintain accountability with state and federal law while maximizing choice for students and families.

Educators go to one place to track contact time with students and monitor their monthly progress. Generate reports in just a few clicks and create intervention plans on the spot for students who need extra support.

Meet requirements without sacrificing contact hours

Provide the flexibility families want with the compliance your program needs. The Alternative Learning Experience application from SchoolData helps you plan for student success in any learning environment.

Measurable metrics for personalized learning

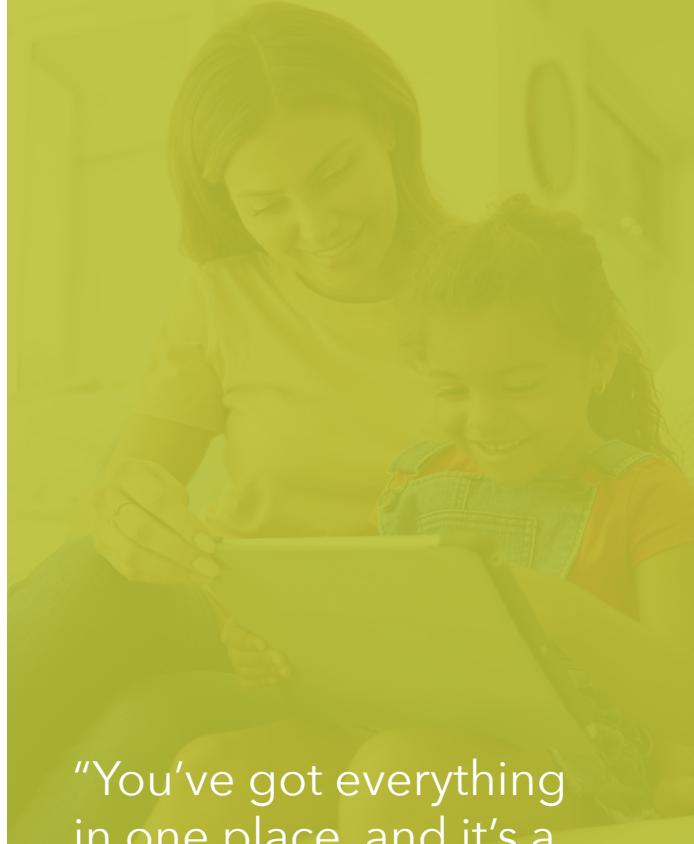

- Build Written Student Learning Plans in moments
- Support individual student needs with configurable course templates
- Streamline adding courses and learning goals to individual WSLPs
- Monitor learning with clear indicators of weekly contact and monthly progress
- Re-engage students with flexible intervention plans

Seamless management of courses and classes

- Ensure compliance with direct links to RCWs and other regulations
- Save time by bulk-adding courses to WSLPs for multiple students
- Display your class schedule, complete with prerequisites, grade level, course type, description, and more

Support your partnership with families

- Provide students and families with flexible class registration options
- Generate actionable reports with a single click
- Facilitate communication with students and parents/guardians
- Export detailed progress reports to share with students and parents

"You've got everything in one place, and it's a systems approach. It's bulletproof."

Allen Andringa
Director of ALE
Ridgefield School District
