mission TELECOM

Connectivity to Power Schools, Libraries and Social Good

Who We Are

Mission Telecom is a 501(c)(4), wireless broadband provider and grant-making foundation advancing digital equity through reliable, affordable connectivity. We serve under-resourced communities, including nonprofits, schools, and libraries, and reinvest our surplus to support initiatives that drive lasting social change.

Who We Serve

Nonprofits
Educational Institutions
Libraries

Digital Equity Organizations
Telehealth
Religious Organizations

"As a customer of Mission Telecom, we can attest that they have consistently performed satisfactorily and demonstrated a strong commitment to reliable service, responsive support, and mission-driven partnership. Their nonprofit-focused approach, combined with their operational reliability and ability to deploy services efficiently, has made them a valuable partner in advancing our connectivity goals".

- Dianne Connery
Development Director, Pottsboro Library
